

# Permission for School Administration of Prescription Medication 11/09

For school use only:

- Routine
- PRN (As needed)

Start Date: \_\_\_\_\_

School District: \_\_\_\_\_

Medications should be administered by a parent or guardian before or after school hours, when possible. Initial doses of a medication that a child has never taken before should not be given at school. Medication to be given at school should be accompanied by this form, complete with the prescribing physician's signature, and provided to the school in the original labeled container provided by the pharmacist who filled the prescription. "Sample" medications must be provided in a container that appropriately identifies the medication and must be accompanied by a note signed and dated by the prescribing health care provider that includes the student's name, directions for proper administration, and the name, address, and phone number of the prescribing health care provider.

## Permission for School Administration of Prescription Medication

Prescription medications are medicines that require a written prescription from a health care practitioner. In order for a child to be given a prescription medicine at school, the child's health care practitioner and the child's parent or guardian should sign a permission form.

A permission form for prescription medicines is provided on the next page. Because the instructions for some medications require more space than is provided on the form, some health care practitioners may prefer to use a practice specific form.

Schools may have special rules for prescription medicines and may require parents or guardians to sign additional forms.

A responsible adult should deliver the medicine and the permission form to the school. The medicine must be in the original container with the label on it.
